CURRENT SCHOOL EXPENDITURES

The Georgia Department of Education does not discriminate in employment or educational activities on the basis of race, color, national origin, sex or handicap.

CURRENT EXPENDITURES IN GEORGIA PUBLIC SCHOOLS

All Schools 1979-80

This publication lists local expenditures for the schools operated by the various school systems. The author has indicated the total reported per pupil costs attributable to six expenditure accounts, e.g., ADA, Instruction, Pupil Services, Instructional Staff Services, General Administration Services, School Administration Services, Business Services, Interest on Loans, Employment Benefits, and Total Expenditures.

Educational expenditure data may vary among school districts for a number of reasons. Comparisons should be made only after careful investigation. Excluded from this data are expenditures for Capital Outlay, Debt Service and Outgoing Transfer accounts. Expenditure figures are important in terms of the education of children and should be so judged. Below are some reasons for variation of expenditure data among school systems.

Class size (Large classes cost less per pupil than do smaller classes).

Salaries paid (High salaries increase per pupil costs; lower salaries decrease them).

Employment policy (Inexperienced personnel and personnel with little experience cost less than more experienced personnel).

Age of building (Older buildings usually involve greater maintenance costs than newer buildings).

Services and programs (Assistant superintendents, principals, assistant principals, clerical services, guidance services, instructional supplies and materials, music, industrial arts, a variety of courses, advanced courses all tend to increase costs).

Accuracy of data reported by the system for expenditure accounts

PLEASE NOTE - The expenditures for 1979-80 shown in this booklet are those which were actually expended and reported by Local school systems.

In addition to the $1,493.43 Cost Per ADA Child for Georgia shown in this booklet, the National Education Association requires Georgia also to count certain other expenditures for public school operation.

$1,493.43	- shown in this booklet
65.26	- appropriation to Georgia Teacher Retirement System
107.74	- federal grant to schools for breakfast, lunch and milk programs
27.72	- cost of operating the Department of Education
$1,694.15	TOTAL

The estimated cost per Child for Georgia in 1980-81 is $1,901. This is the figure NEA will publish.

(1) Includes $69,439.96 from Schley County and $57,477.05 from Webster County for students at Tri-County High School.

(2) Excludes $69,439.96 transferred to Marion County for Schley County high school students attending Tri-County High School.

(3) Excludes $57,477.05 transferred to Marion County for Webster County high school students attending Tri-County High School.

(4) This figure (Total Receipts) does not include the funds for the transportation of the high school students from Schley and Webster Counties to the Tri-County High School. These counties receive the funds and pay for the transportation of their own students.

(5) This figure (Total Receipts) includes funds received for the transportation of high school students to the Tri-County High School in Marion County.
